

Tastotherm Mini - Series

Tastotherm Mini - Series

The digital temperature measurement instruments of the Tastotherm Mini - Series with Pt 100 or thermocouple type K probes for a temperature range between -99.9 and 1000°C by contact are very small (pocket size), handy and accurate.

Tastotherm
Mini Pt 100
-99,9 ... 199,9°C
-147.8 ... 391.8°F

- with fix mounted Pt 100 probe
for measurements in liquids and bulk goods
Response time: 5 s
(T99 in water)

Tastotherm
Mini SOT 200
-20 ... 1000°C
-4 ... 1832°F

- with fix mounted surface/ immersion probe
for measurements of surfaces and liquid media
with gold/ platinum tip
Response time: 5 s
(T99 in water) Tastotherm
Mini T 200
-20 ... 1000°C
-4 ... 1832°F

- with fix mounted immersion probe
for measurements in liquids and bulk goods
Response time: 4 s
(T99 in water)

Tastotherm
Mini SOT 300
-40 ... 1000°C
-40 ... 1832°F

- with fix mounted surface/ immersion probe
for measurements of surfaces and liquid media
with gold/ platinum tip
Response time: 5 s
(T99 in water)
Tastotherm
Mini T 300
-40 ... 1000°C
-40 ... 1832°F

- with fix mounted immersion probe
for measurements in liquids and bulk goods
Response time: 4 s
(T99 in water)

Typical applications

Workshop
Production
Quality control
Food industry
(Coffee, Chocolate)
